Landscape: The Kayak for things around you

Landscape is an app that lets the user search for anything that would have a review in their area. The app will then scrape multiple websites for reviews and give the user the top results it finds. Here's how it works!

Search Page:	3
Results Page:	5
Is Landscape Complete? Page:	7

Home Page:

When the you visits the app, you are met with the Home page. From here the you only have a couple options. We will go through the options one by one to give you a better idea of our features.

You can select either the **Search** or **Let's Get Started** button to access the search page.

You will then be met with a page that looks like this depending on your search.

These results were generated by grabbing the top 3 results from the multiple websites and collapsing repeated places. Pictures, stars, name, and location are all scrapped and shown in individual components as seen. If you click on a component, then it will take you to that review's webpage so you can get more info.
